

- a unique partnership between universities and industry

SPARK Denmark is open for applications!

SPARK Denmark is a mentoring programme that supports early-stage academic inventions with industrial mentorship, education, and funding. The aim is to bridge the gap between academia and business and to support the further development of research results towards commercialisation.

Projects must be within life science in the areas of therapeutics, diagnostics, health tech, medtech or industrial biotech.

Applicants should be academic researchers from universities and hospitals in Denmark.

Main activities of the SPARK program:

- Selected projects will receive funding of up to DKK 700,000 for 24 months
- Monthly SPARK mentor meetings with industry experts
- Frequent educational sessions on relevant topics for translating research to business
- Access to world-wide SPARK Network

Application deadline: February 26th, 2025:
www.sparkdenmark.ku.dk

SPARK Denmark is funded by the Novo Nordisk Foundation
